

THOR

- Premium tooling for roughing, semi-finishing and finishing of materials up to 55 HRC.
- Super ultrafine carbide grade with high hot hardness coating allows for dry cutting and excellent work piece finish while increasing tool life.
- High precision geometry increases the chipping resistance enabling machining with very close tolerances.
- Recommended for machining of hardened steels, high alloy steels, tool steels, mold steels.

High Performance Endmill - Square

High Performance Endmill - Ballnose

High Performance Endmill - Corner Radius

Working material :

P	H	M	K	S	N
○	●			○	

● Recommended ○ Good

P- Steels | H- Hardened Steels | M- Stainless Steels | K- Cast Iron | S- Special Alloys | N- Non-Ferrous
